

# Good Blood Good Health

Good blood nourishes and supports every membrane and tissue, every bone and muscle, of the body, and enables every organ to perform its functions, naturally and perfectly. It is the best gift of parent to child, and should be carefully safeguarded.

If you have begun to lose appetite or to get tired easily, or to feel run down, dull or listless, without ambition or courage, your blood is no longer good blood, but is in a condition in which it is really hazardous to neglect it. It needs purifying, enriching or revitalizing, and the best medicine you can take for this purpose is Hood's Sarsaparilla. This statement, which we make from our own thorough knowledge of the comparative medicinal and pharmaceutical merit of this eminently successful medicine, is confirmed by the voluntary testimony of thousands of people in this country and abroad.

## Hood's Sarsaparilla Makes Good Blood

and enjoys the same distinction as a preventive that it does as a cure. Its early use has often proved the wisdom of the adage that "a stitch in time saves nine."

#### Taft's Aim in Going to Panama Before Shonts Reports.

Washington, Oct. 21.—There has been curiosity as to why Secretary Taft planned a trip to the isthmus of Panama without waiting to hear the report of Chairman Shonts of the canal commission, who has just been there. It now appears that the reason is that Secretary Taft desires to prepare himself for a searching inquiry which Congress will make as to work accomplished and prospective.

Mr. Taft has insisted that he be recognized as the responsible person, in supreme control of the enterprise. It will be to him that the senators and representatives will direct questions before they decide what type of canal shall be constructed. Mr. Taft visited the isthmus one year ago, just before Congress met.

Close observers of canal affairs are interested in the official situation. Secretary Taft has been assured by the President that he is to be supreme in the building of the canal. Chairman Shonts accepted his office with assurance that he should have wide latitude. The Washington office of the isthmian canal commission has been industriously denying that Secretary Taft was disposed to hand the canal over to Secretary Root of the state department because he did not approve certain policies put in force by Mr. Shonts.

The story published recently that the majority of the members of the international board of consulting engineers favor a lock canal drew yesterday this statement from Maj.-Gen. Davis, chairman of the board:

"So far as I am aware, neither the board nor any individual member of it has expressed any opinion as to the type of canal that is favored."

"Two committees have been appointed to study the two types of canal, sea level and lock, and these committees are endeavoring to develop the best canal of each type. When the work shall have been completed the whole board will be ready to decide which type it prefers."

#### To Compete with Beef Trust.

New York, Oct. 21.—American capitalists have selected a site in Rosario, Argentina, for the establishment of a large meat freezing factory, with the idea of exporting frozen beef to the United States in order to compete with the Beef Trust.

Miss Hannah Halonen, of Wardsboro, is, it is thought, the only woman creamery butter maker and manager in New England, says The New England Farmer. She is a native of Finland, having been for the past three years with the Wardsboro creamery, which has a capacity of 3,700 pounds of butter a month, and, under her management, has won a good reputation for the excellence of its product. In an interview Miss Halonen told The New England Farmer that in her country the dairy conditions and methods are similar to those of New England. The Finland farmers are importing Holsteins, Jerseys, and other dairy breeds, and using cream separators and all improved dairy utensils. As a result of this their butter finds a ready sale in the markets of northern Europe.

### REPEATING SHOTGUNS

No matter how big the bird, no matter how heavy its plumage or swift its flight, you can bring it to bag with a long, strong, straight shooting Winchester Repeating Shotgun. Results are what count. They always give the best results in field, fowl or trap shooting, and are sold within reach of everybody's pocketbook.

## WALKED AWAY WITH NORWICH

### Goddard Won Unexpected Victory Yesterday

#### BY SCORE OF 12 TO FOUR

University Boys Had Slight Advantage in Weight, but Goddard Won by Snappy Work in First Half.

Goddard seminary defeated the Norwich university eleven on the local campus here yesterday afternoon by a score of 12 to 4. Goddard started the season very weak on account of having so much green material to work up, but she has been growing stronger every day under the efficient coaching of Prof. Cannell and the great victory over Norwich yesterday was a little more than the team's most ardent supporters had thought anywhere near likely. Goddard played a snappy, well handled game against a heavier team and in the first half outpointed Norwich in every way. Norwich was fairly swept off her feet in the first half, Goddard making both her touch downs in this period. Goddard's backs played an excellent game. Capt. Knapp at right half made both the touch downs, the first one after a thirty yard run and the second after a ten yard run. Hosford and Cannell, at full and left half, made good gains. R. Berry on end also tackled fiercely. Goddard's line, which has been her weakest point this season, showed up well against Norwich's line, though in the last half of the game the visitors made some of their best gains by tackle back plays through Goddard's line.

Norwich started the game by kicking off to Goddard. The ball struck the ground and rolled to Knapp, who stood near the goal line. He rushed in ten yards before he was downed. From the first rush Goddard showed that she was in the game for business and with regular formation plays, the backs in line, went through Norwich's line as if it had been of pasteboard for ten and fifteen yard gains. After rushing the ball with these plays to the visitors' thirty yard line, Knapp circled their left end and with great work in dodging Norwich's backs ran the distance for a touch down. Cannell kicked the goal.

Goddard kicked to Norwich and the ball was downed on the latter's fifteen yard line. Norwich tried twice, unsuccessfully, to gain through the home team's line and they punted to the center of the field, and the ball went to Goddard. Cannell made two gains of five yards each and in the next rush Goddard made her only fumble in the game, but Sawyer fell on the ball for a loss of three yards. Goddard then faked a punt and made fifteen yards on it, Hosford circling around right end for that distance before he was caught. This brought the ball to Norwich's ten yard line. In the next rush Goddard was penalized five yards for off side play, but Knapp made up for this in one rush and then got by their right end for ten yards, which carried the ball over for the second touch down. The touch down was made in the corner of the field, and in order that they might have a better chance to kick the goal Knapp punted the ball into the field to Cannell, who heeled and then kicked the goal, giving a score of 12 to 0.

Goddard kicked to Norwich, and downed the ball on the fifteen yard line. Barber gained five yards and quarter back Hutchins got away with the ball for 25 yards before he was downed by Sawyer and Berry, the former of whom had the breath knocked out of him in the tackle, and was laid out for several minutes. After two more rushes time was called for the half with the ball in the center of the field.

The second half was more in Norwich's favor. She played a much stronger game and Goddard seemed to have lost a little of her hold. Goddard kicked off to Norwich and downed the ball on the 25 yard line. The university then rushed the ball very effectively with her tackles, who made good gains and soon had the ball on the home team's fifteen yard line. Here Goddard took a brace and held them for two downs. Capt. Huntley then saved his team from a shut out by place kicking a goal, which netted them four points.

Norwich next kicked off to Goddard. The ball was downed on the fifteen yard line and after Knapp had made a gain of fifteen yards and Cannell five Norwich held them for downs for the first time. The visitors then gained slowly up to Goddard's ten yard line, Barber bringing the ball there by a good ten yard gain. There was only a half-minute more to play, and Huntley, seeing that there was not time to make a touch down, attempted to kick another goal from placement, but it was blocked and the game was over.

Barber, who played a good game at half back for the university team, is a Barre boy and a graduate of Spaulding high school.

The line up:

GODDARD	NORWICH
L. Clark, c.	.....Cole, c.
Ogden, r. g.	.....Wilden, l. g.
Houghton, l. g.	.....Bampton, r. g.
Clark, l. t.	.....Huntley, r. t.
S. Berry, r. t.	.....Smith, l. t.
Osher, r. e.	.....McCarthy, r. e.
R. Berry, l. e.	.....Clarkson, l. e.
Sawyer, q. b.	.....Hutchins, q. b.
Hosford, l. b.	.....Andrews, r. b.
Cannell, l. b.	.....Barber, l. b.
Knapp, r. h.	.....Damon, f. b.
Umpire, Moore of Northfield; referee, Carswell of Barre; time, 15 minute halves.	

#### MIDDLEBURY LOST.

New Hampshire State College Defeated Vermonters.

Middlebury, Oct. 21.—The football game between New Hampshire State and Middlebury College was played yesterday afternoon on a muddy field and re-

Many a poor mother who feels that those she holds most precious are gradually slipping away from her over the terrible precept of disease, would be thankful to know what Doctor Pierce's wonderful "Golden Medical Discovery" has done to restore thousands of weak and wasted children to complete rounded, rosy, healthy, activity and life.

"Five years ago this last fall I was taken down with a fever, and was very bad for several months," writes Mrs. Henrietta Bell of Diamond, Ohio. She continues: "Finally recovered from the fever, then my lungs became very bad. The doctor said I had consumption, and that he had done all he could for me, and he did not think that I could get well. My case was a very dangerous one. Became very weak, had night-sweats, also a very bad cough, night and day. At times would spit blood. I felt as though my time on earth would be short. Requested my husband to get me a bottle of Dr. Pierce's Golden Medical Discovery, and perhaps it would help me. Before I had taken one bottle my cough was almost gone. The next to disappear were the night-sweats. I am almost sure that if it had not been for your medicine I would not have been here today."

If mothers will only write to Dr. Pierce concerning the ailments of their family he will send them sound and valuable advice in a plain sealed envelope, and without any charge whatever. His remarkably wide experience has qualified him to deal with diseases which baffle the local practitioner. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

suited in a victory for N. H. S. by the score of 6 to 0. The varsity put up a great offensive game but lost through fumbles.

Stevens, Long and Bushman played a fine game for Middlebury. The visitors outweighed the locals 10 pounds to a man. For New Hampshire, Feller excelled.

N. H. S. scored its only touchdown in the first half but Middlebury's goal line was far away in the last period of play. Ten and 15-minute halves were played.

#### STANDARD COMPANY PAID IN FULL

Collection Taken to Settle Claim of Ninety Cents Against Bankrupt Estate.

Topeka, Kan., Oct. 21.—The creditors of the C. J. Devin estate held a meeting in the Federal Courtroom here Thursday. A feature was the filing of a claim for ninety cents against the estate of the Standard Oil Company. It raised a laugh and on motion of Thomas F. Doran, attorney for some of the other creditors, a collection was taken to pay the claim. The money was sent with the following letter dictated by Eugene F. Ware:

Standard Oil Company, No. 26 Broadway, New York:  
Gentlemen—At a meeting of the creditors of C. J. Devin, bankrupt, held today, your claim of ninety cents against the estate having been submitted to the referee in open court, there being a large attendance of creditors present, it was moved and carried by unanimous vote that a collection be taken up to pay you in full.

In view of the kindly feeling entertained for you in this State, and the apprehension that only a small dividend might be realized, the money is herewith remitted by postal money order. Kindly send receipt to N. H. Loomis, referee in bankruptcy of the estate of C. J. Devin.

Standard Oil Prices Go Up.

Pittsburg, Pa., Oct. 21.—The Standard Oil Company yesterday advanced the price of all grades of crude oil, except Raglan.

## TO RESTORE CANTEEN.

### Senator Proctor to Introduce the Bill

#### AT THE COMING SESSION.

Prominent Army Men Behind the Movement — Point to the Ill Effects of the "Dry" Canteen.

Washington, D. C., Oct. 21.—At the approaching session of Congress Senator Proctor, who will be chairman of the Senate committee on military affairs, will introduce a bill restoring the canteen at army posts.

Senator Proctor has received from the surgeon-general's office a statistical representation of the "curse of drunkenness" in the army, which shows clearly the effect of stopping the sale of beer at the posts. In 1899 and 1900, the two years just preceding the abolition of the beer selling feature of the canteen, the admission to military hospitals of cases of alcoholism was but a fraction more than 15 per 1000. In 1901 the admissions were nearly 24 per 1000, and last year nearly 28.

Ever since the prohibitory law became effective, department, division, regimental and post commanders have been reporting increased disorder, drunkenness and dereliction from duty. They vigorously recommend the restoration of the old custom. Secretary Taft has expressed himself strongly in favor of repeal.

#### LIKE ARABIAN NIGHTS.

Miss Ide Tells of Pekin Visit With Miss Roosevelt.

San Francisco, Cal., Oct. 21.—Miss Anna L. and Miss Marjorie Ide, daughters of Henry C. Ide of the Philippine commission, have arrived here on the Japanese liner America Maru. They accompanied Miss Alice Roosevelt and members of the Taft party to Pekin.

The Dowager Empress of China, they say, proved a delightful hostess. Before the guests departed each was presented with a souvenir of the visit. Each of the girls received a beautiful pearl, and the men were not forgotten.

Miss Marjorie Ide said that her visit to the Empress was like living through a chapter of "The Arabian Nights" and that when the pearls were handed around like streets car transfers she could have screamed with delight.

Wu Ting Fang, former minister from China to Washington, acted as interpreter for the Empress. He invariably placed his face on the floor before addressing her.

"The Empress," said Miss Marjorie Ide, "except for a look of cruelty which comes and goes like a shadow, has almost a motherly look. The Emperor was there, but did not seem to know what to do, and the old lady pulled him around by his side sleeves and jerked him most ungentle into whatever position she thought he ought to stand."

Standard Oil Company, No. 26 Broadway, New York:

## INTERESTING FACTS

Remarks By An Observer.

"It seems strange to me," remarked a prominent physician the other day, "why so many people make light of what is, in many respects, one of the most dangerous diseases—Grip. Scores of people whom I know seem to regard this deadly malady as a joke or call it fashionable."

"Possibly there is no disease that is as far reaching in its effects as this same 'fashionable' Grip. Fashionable indeed! When I stop to think of the appalling results of Grip that have come under my observation, it makes me shudder. Would you consider it 'fashionable' to have a weak heart, affected lungs or impaired eyesight? Would it be a joke to spend the remainder of your days in an insane asylum? These are not mere fancies; they are pictures drawn from life showing the awful results from Grip. Of course all persons suffering from an attack of Grip are not left with these afflictions, but I have yet to discover a person who has had this disease who has not been left with some portion of his system weakened. It is this weak spot that is susceptible to every unhealthy influence that comes along. The best way to prevent Grip is to keep the system in such good condition that it will throw off any tendencies toward this prevalent disease."

The best way to fortify yourself against Grip is to take Mace's Emulsion. It gives you the strength and vitality necessary to stand severe weather, and can always be depended upon. It is a nutrient of the highest value, and after a period of low vitality it puts hope into the patient and makes life worth living. It replaces the wasted tissues and holds all gains.

Mace's Emulsion is a pure cod liver oil, combined with Malt Extract and Hypophosphites of Lime and Soda. Cod Liver Oil has long been recognized by the medical profession as the best remedy for Bronchial and Pulmonary affections, and in Mace's you get the pure article in combination with the Malt and Hypophosphites. Solid Malt Extract such as is used in Mace's Emulsion is non-alcoholic and is regarded by physicians as the highest form of food. You thus get a food, a medicine and a tonic combined. Mace's Emulsion is the greatest flesh builder and invigorator known. It strengthens the weak and imparts vitality to the most delicate invalid. Don't delay—it's dangerous; start taking it today.

Beware of the wine preparations. They are only artificial stimulants and the reaction which follows their use leaves you in a worse condition than before. There is only one Mace's Emulsion and it contains no whiskey—no wine—just food.

It may be procured of E. A. Drown, Druggist, 48 No. Main street, Barre Vt.

#### NO DEATHS FOR 48 HOURS.

Fever Dying Out Rapidly at New Orleans.

New Orleans, Oct. 21.—No yellow fever deaths have occurred during the past forty-eight hours, and the indications yesterday pointed to a new low record of new cases.

Harry Liberty, 19 years old, adopted son of Andrew Liberty of Colechester, was Wednesday sentenced in Burlington city court to serve not less than two and not more than two and one half years at hard labor in the House of Correction at Rutland. Liberty was arrested about a week ago for stealing a livery team.
